

OCT Severe Weather Policy

Whenever the National Weather Service issues a severe weather warning or watch for Okaloosa County and surrounding areas, OCT will provide regular transit service until sustained winds reach 39 mph. At that time OCT buses will finish their current run and service will be suspended for the duration of the emergency. OCT will suspend service for Paratransit Service when sustained winds reach 35 mph.

For weather emergency related information when EOC is activated, contact the Okaloosa County Public Safety Citizen Information Line at 850-651-7583
